

Doris Faith

Snatching the Pen out of Satan's Hands

Lukewarm Years

Touched and saved by the Lord as a child, Doris Faith's is the life story of a woman who spent over 40 years of her life literally in the California and Texas deserts, lukewarm toward God. Doris's Mom and Dad did not know how to show their love. Then her husband of 23 years told her that he loved her, but not enough. He surprised her when he left by saying that what he liked least about her is that she did not like herself.

Cold Years

Her failed marriage ushered in the cold years. Coming from a comfortable life, she was dependent upon her own resources for the first time in her life. Working in the construction industry, she was a woman in a man's world. Little did these men know about her vow that no one would ever put her down or take advantage of her again, without a fight. Doris had great contempt for authority and was totally out of control, tasting many flavors of the world.

Hot Years

Jesus was about to touch Doris for the second time by bringing her back to Texas to fulfill her longing to have a loving relationship with her ailing mother. Living in California with a very successful job, Doris gave up everything to move back to the Texas heat, where, little did she know, her heart would soon heat up as well.

When Doris's sister-in-law revealed the truth that you can "really get to know God" personally and not just know about Him, she began to go back to church – not to meet her own needs, but because of a growing awareness of the Lord. That's when the Holy Spirit became her personal trainer. Jesus took the pen away from Satan, and now God is busy writing the chapters of the "hot years" of her life.

Doris's speech:

Snatching the Pen out of Satan's Hands

Biography authored by Satan and the Lord Jesus Christ.

This is a journey through Doris's life, the lukewarm chapters and cold chapters mostly in Satan's control and finally the hot chapters in God's full control.

Satan can do more damage writing the lukewarm chapters than even the cold chapters. In the cold years, you know you're out of sync with God, but in the lukewarm years you are comfortable in your "religious" lifestyle seeing no reason to make changes.

Her story will give people hope that even though life may not be good, it can be great. Follow Doris from flight to fight to God's way – love – as Jesus snatches the pen from Satan's hands and becomes the author of the chapters of her life.

Who should attend?

Anyone who:

- ♦ has ever felt rejection from their parents, spouses or others.
- ♦ feels they are leading a lukewarm life instead of the full life God promises.
- ♦ is trying to regain hope and/or purpose in their life.
- ♦ wants Jesus to take over writing the chapters of their life.

Length of talk: 8, 15 or 25 minutes
